

Stallers

Power BI

Get ready to get a Placement earlier this time

Course Overview

Stallers

This 12-week course is meticulously designed to cover everything from the fundamentals of Power BI to advanced features. You'll learn how to transform raw data into meaningful insights through interactive reports and dashboards. By the end of the course, you'll be proficient in using Power BI to analyze data, create compelling visualizations, and make data-driven decisions.

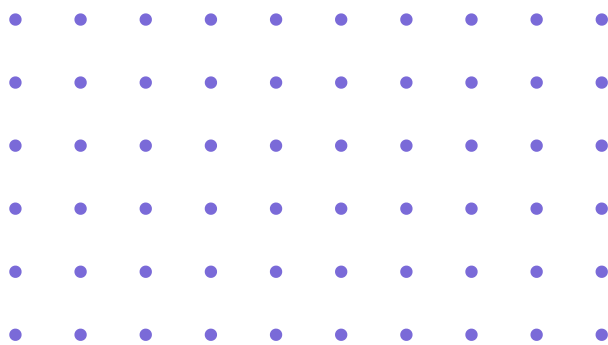

Duration: 12 Weeks

Mode: In-person
(Google Meet)

Start Date: 25 Oct. 2024

Key Features

Hands-On Projects

Build real-world applications from day one

Expert Instructors:

Learn from industry professionals with years of experience.

Flexible Learning

Access course materials anytime, anywhere.

Support

24/7 access to our helpdesk and community forums.

OBJECTIVES

What we do?

At Stallers, we partner with various startups to provide real-world projects and job placements. Our mentors guide students through hands-on learning, ensuring they gain practical skills. This approach helps students secure job opportunities quickly.

How we Teach ?

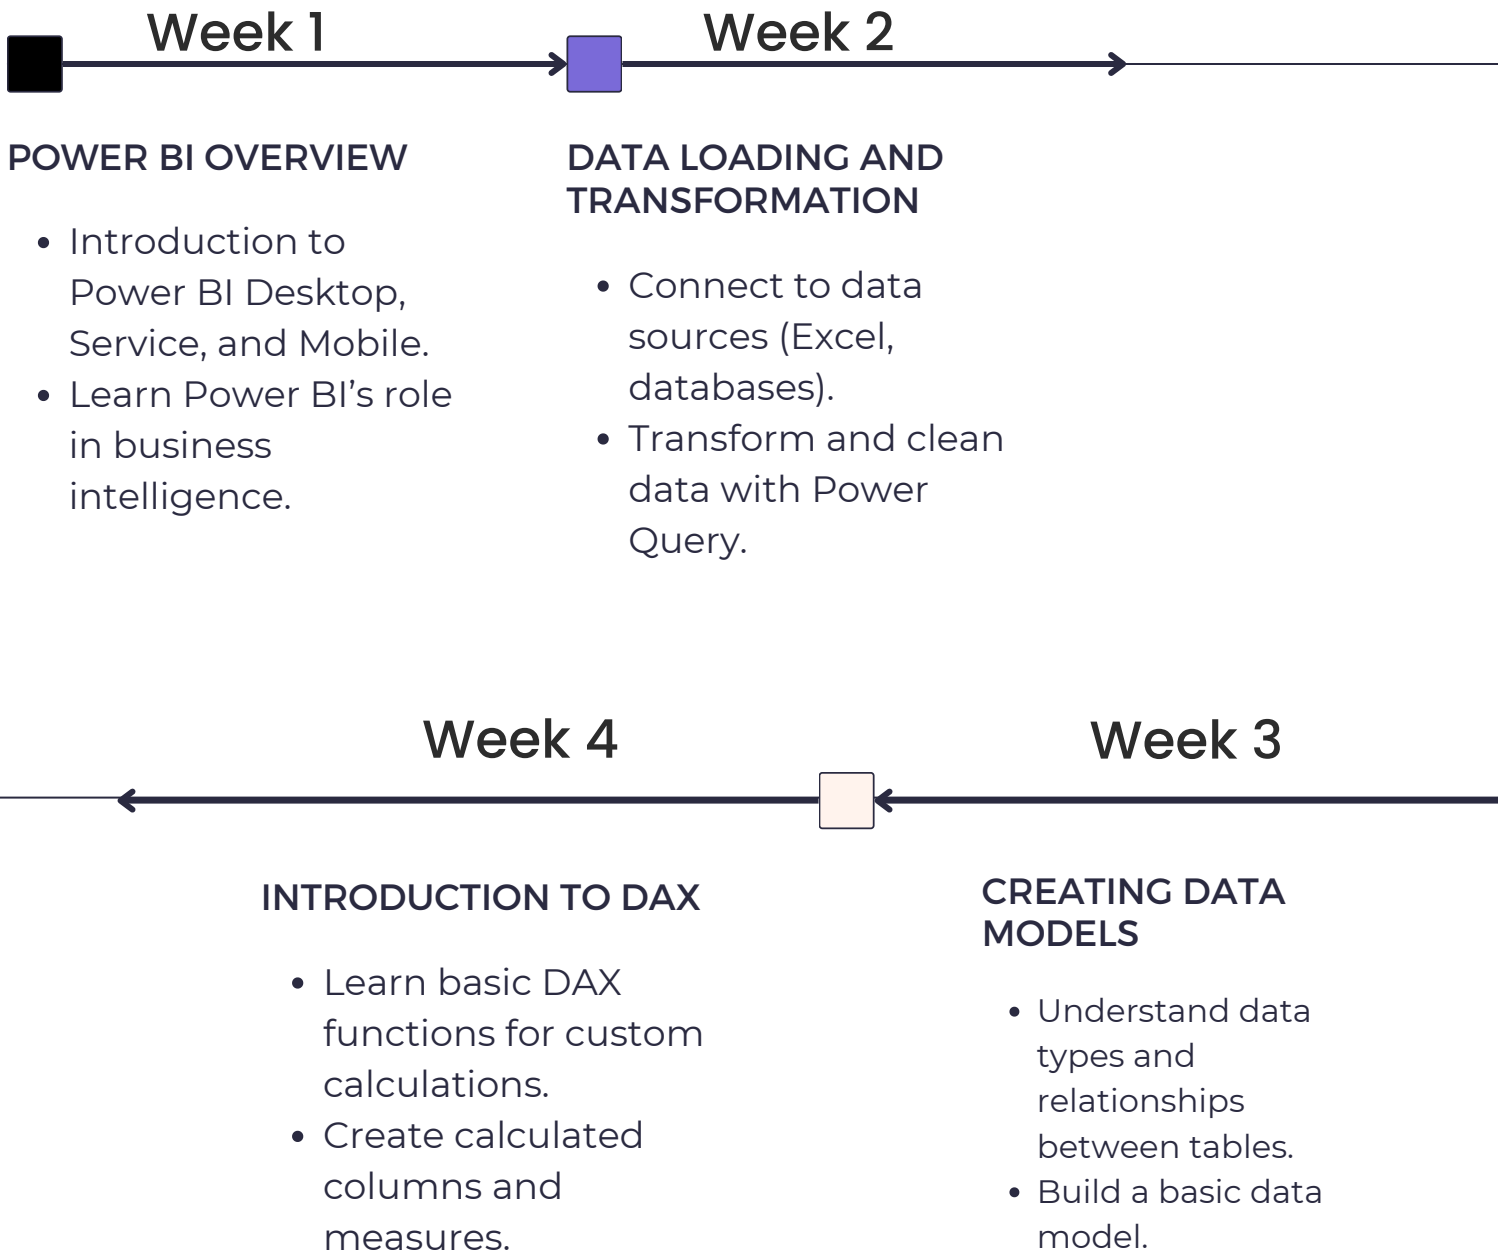

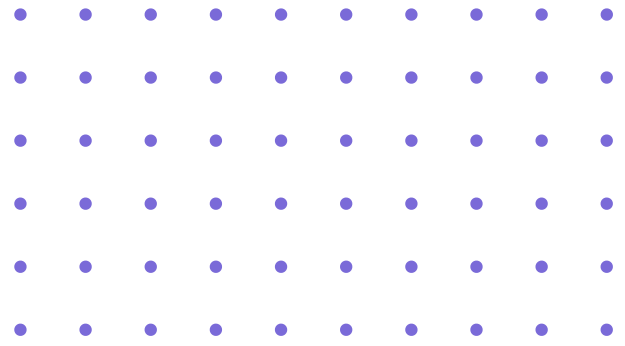

At Stallers, our skilled mentors provide interactive sessions, hands-on projects, and regular assessments. Their guidance ensures practical skills and personalized support, with job placement assistance to help you succeed in 3 months.

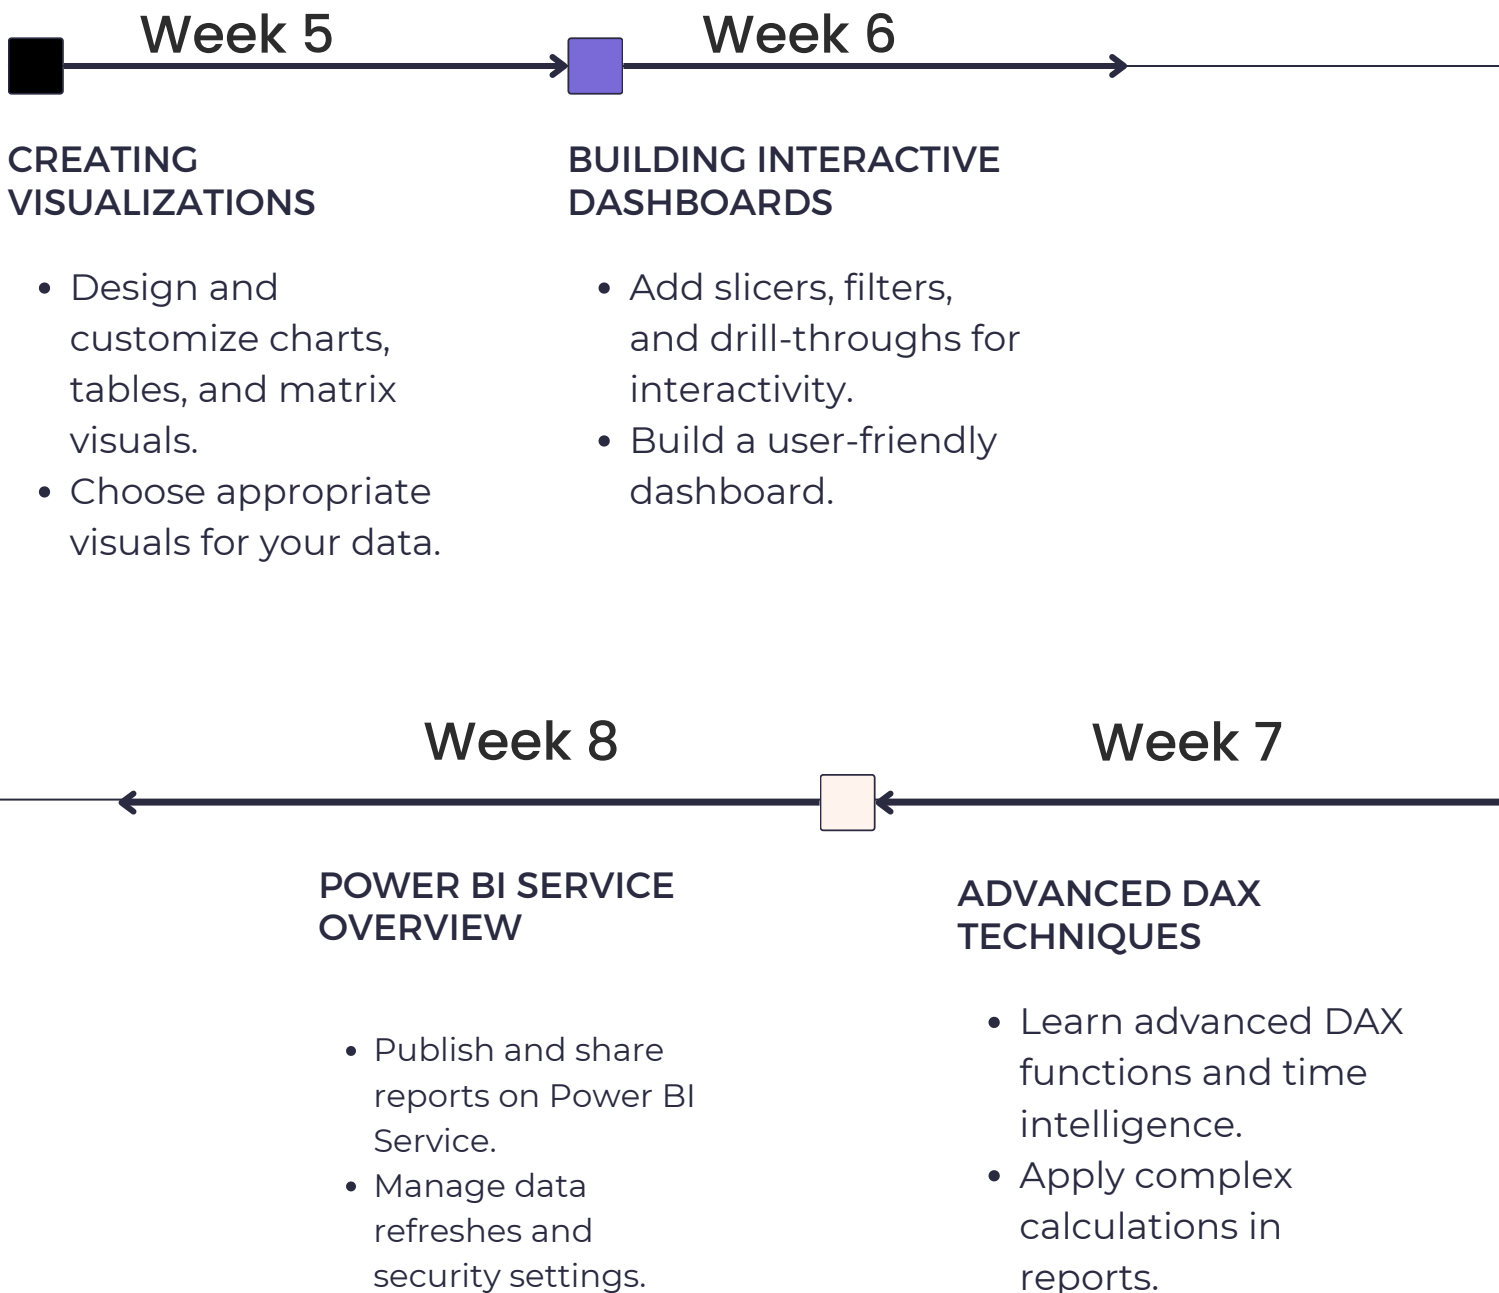

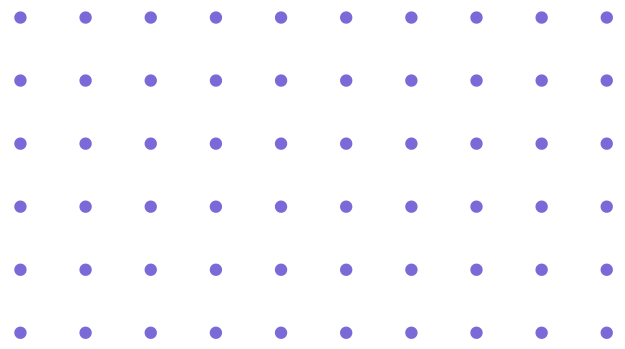

Placements we provide

Join Stallers and boost your career with guaranteed placement support. Our expert team connects you with top opportunities, ensuring you're job-ready upon course completion. Secure your future with us today!

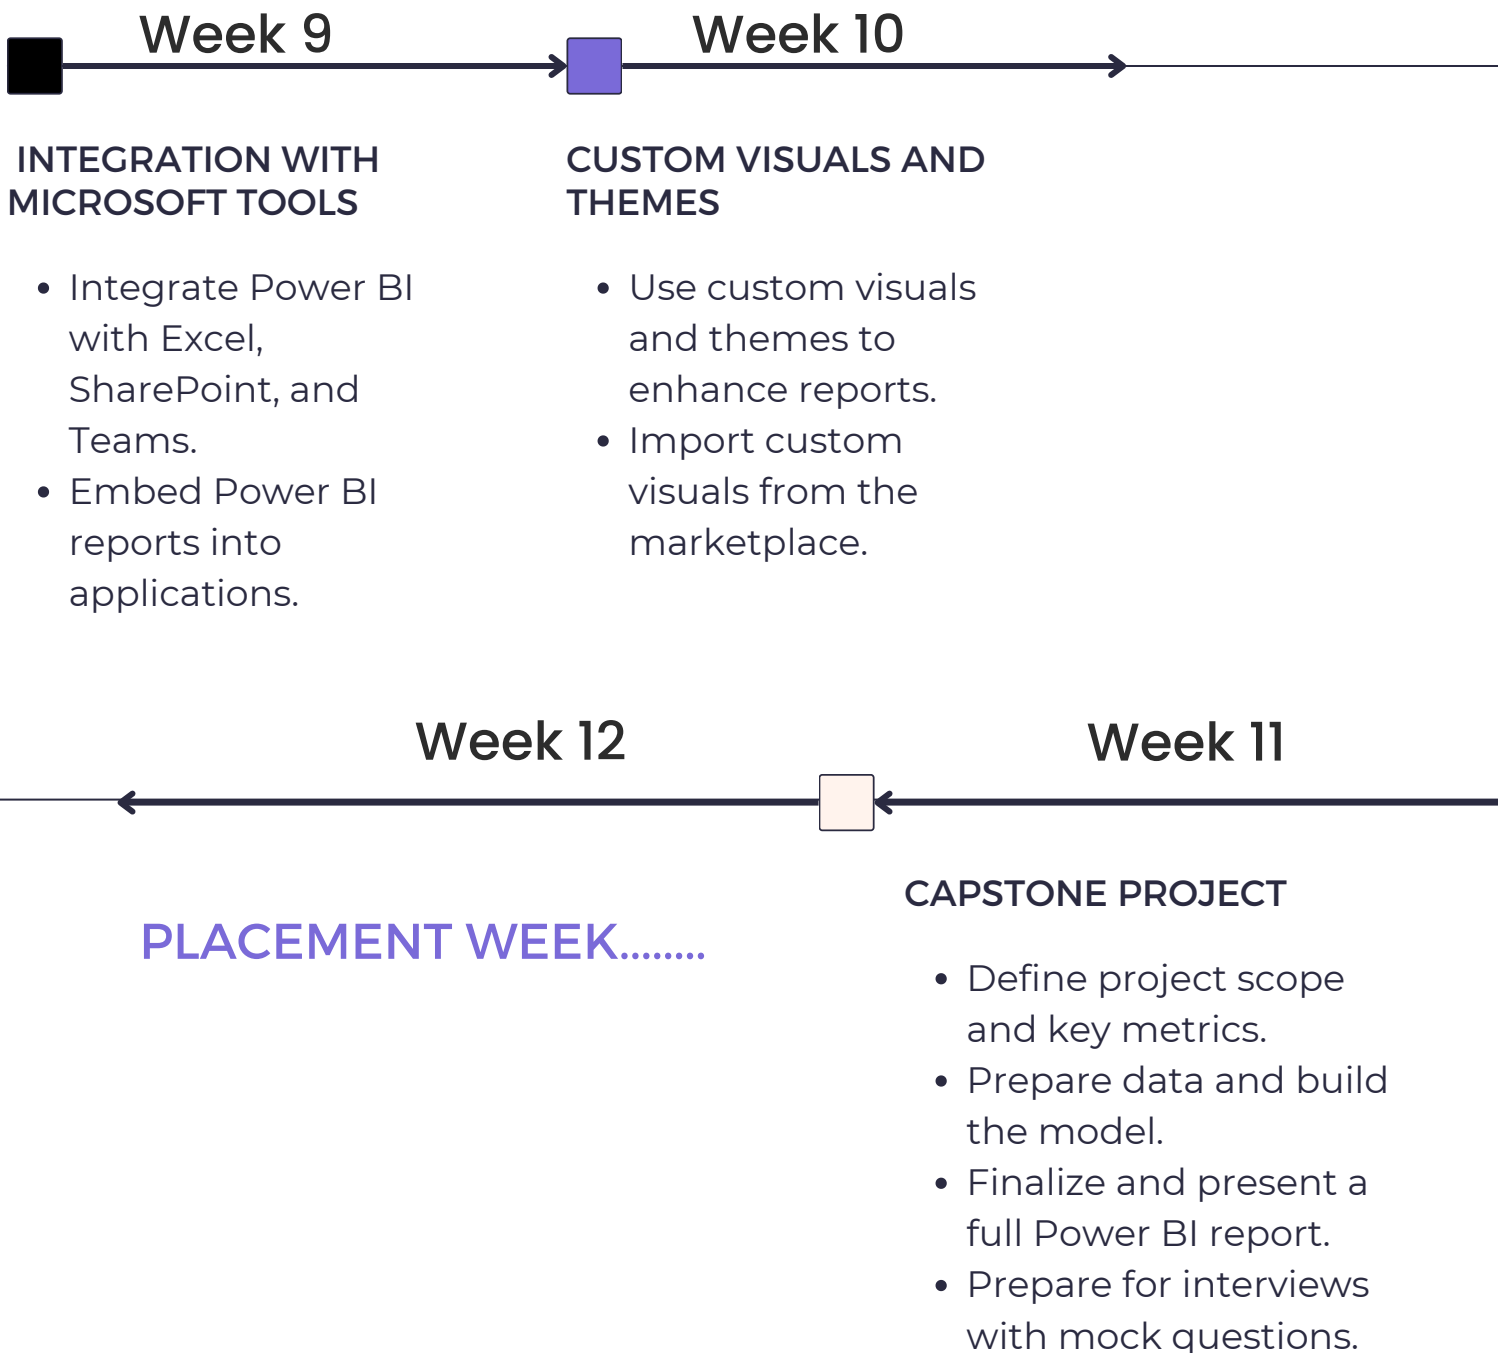

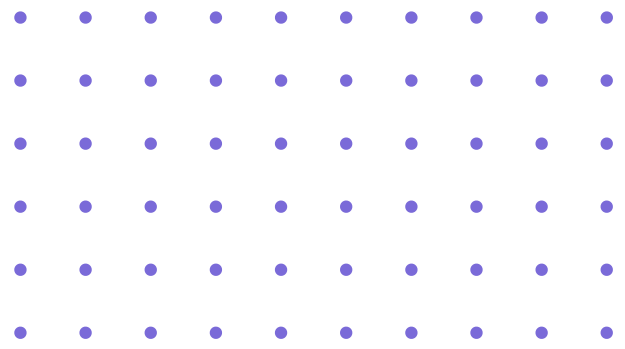

Course Roadmap

Course Roadmap

Course Roadmap

DETAILED **SYLLABUS**

Week 1 and 2

Stallers

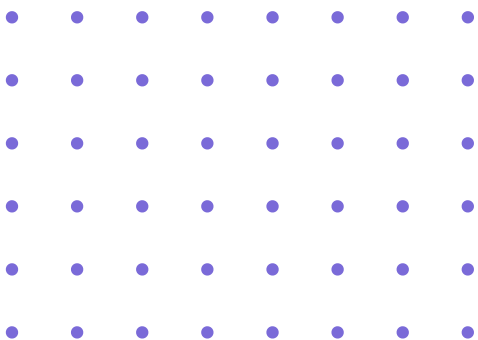

Introduction to Power BI

- **Power BI Overview:** Understand the core components of Power BI, including Power BI Desktop, Power BI Service, and Power BI Mobile. Learn how these tools fit into the Power BI ecosystem and their use cases.
- **Data Loading and Transformation:** Learn how to connect to various data sources and transform data using Power Query Editor. Understand how to clean, shape, and prepare data for analysis.

Outcomes

Students will understand the components of the Power BI ecosystem and know how to load and transform data using Power Query Editor. They will be able to clean and prepare data for further analysis.

Week 3 and 4

Stallers

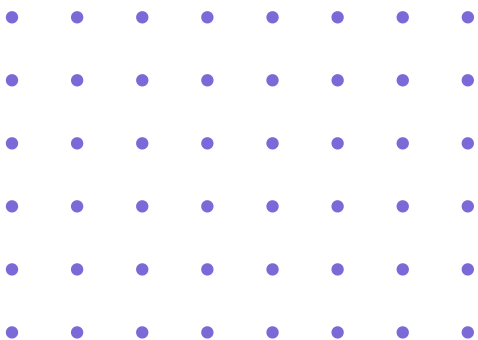

Data Modeling and Relationships

- **Creating Data Models:** Explore how to create and manage data models in Power BI. Learn about different data types, relationships, and how to build a robust data model for analysis.
- **DAX Basics:** Introduction to Data Analysis Expressions (DAX), the formula language used in Power BI for creating custom calculations and aggregations. Study basic DAX functions and their applications.

Outcomes

Students will learn to create and manage data models in Power BI, build relationships between tables, and apply basic DAX functions for custom calculations and aggregations.

Week 5 and 6

Stallers

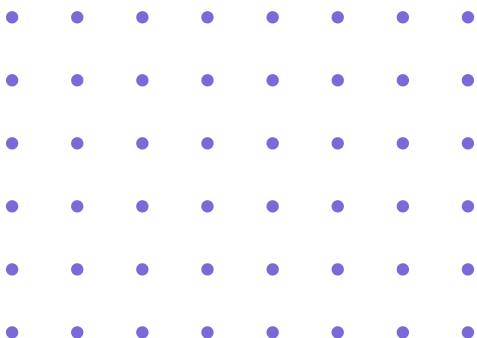

Data Visualization

- **Creating Visualizations:** Master the art of data visualization by learning to create and customize various types of charts, tables, and maps. Understand how to choose the right visual for your data.
- **Interactive Dashboards:** Learn how to design interactive dashboards with slicers, filters, and drill-through capabilities. Explore best practices for creating user-friendly and insightful visualizations.

Outcomes

Students will master the skills to create and customize various visualizations and build interactive dashboards with filters and slicers, focusing on best practices for effective data presentation.

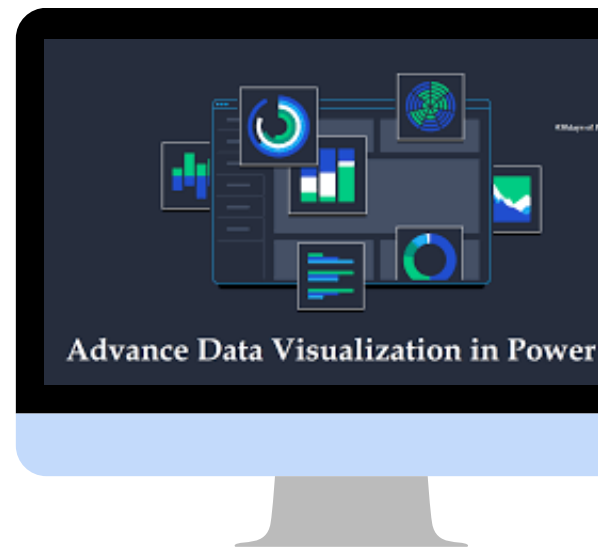

Week 7 and 8

Stallers

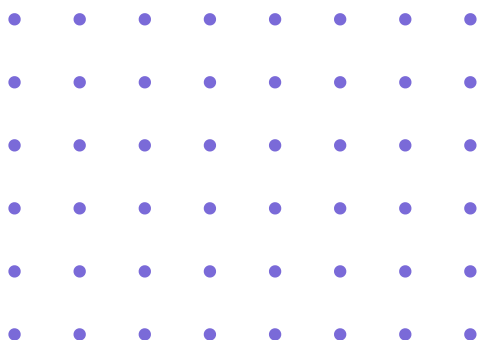

Advanced Power BI Features

- **Advanced DAX:** Deepen your knowledge of DAX with advanced functions and techniques. Learn how to create complex calculations and measures to enhance your data analysis.
- **Power BI Service:** Explore Power BI Service for publishing, sharing, and collaborating on reports and dashboards. Understand how to manage and schedule data refreshes and security settings.

Outcomes

Students will gain proficiency in advanced DAX functions and be able to use Power BI Service to publish and share reports. They will learn how to manage data refreshes and apply security features.

Week 9 and 10

Stallers

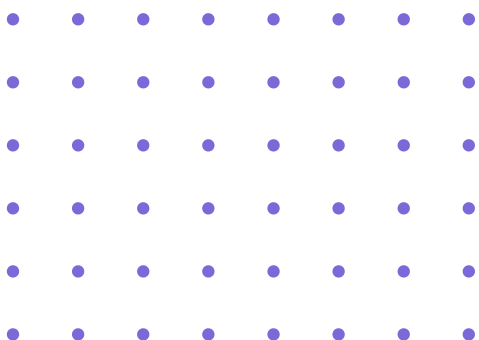

Power BI Integration and Customization

- **Integration with Other Tools:** Learn how to integrate Power BI with other Microsoft tools such as Excel, Azure, and SharePoint. Explore options for embedding Power BI reports in other applications.
- **Custom Visuals and Themes:** Discover how to use custom visuals and themes to enhance the appearance and functionality of your reports. Learn how to import and utilize custom visuals from the Power BI marketplace.

Outcomes

Students will understand how to integrate Power BI with other Microsoft tools like Excel and SharePoint, and utilize custom visuals and themes to enhance report aesthetics and functionality.

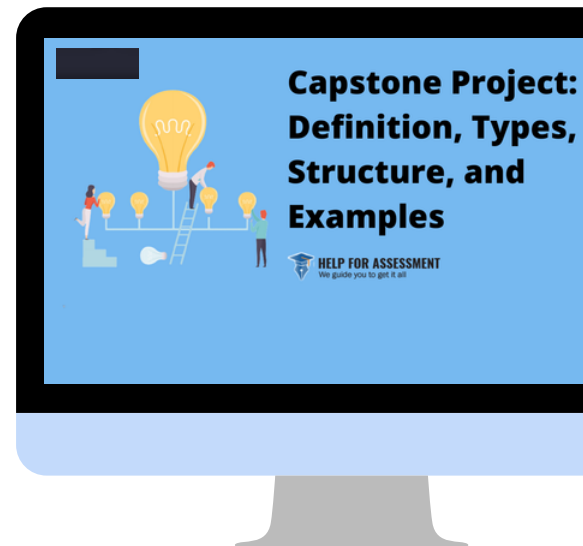

Week 11 and 12

Stallers

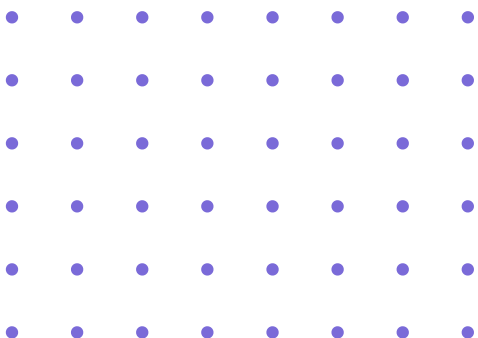

Capstone Project & Review

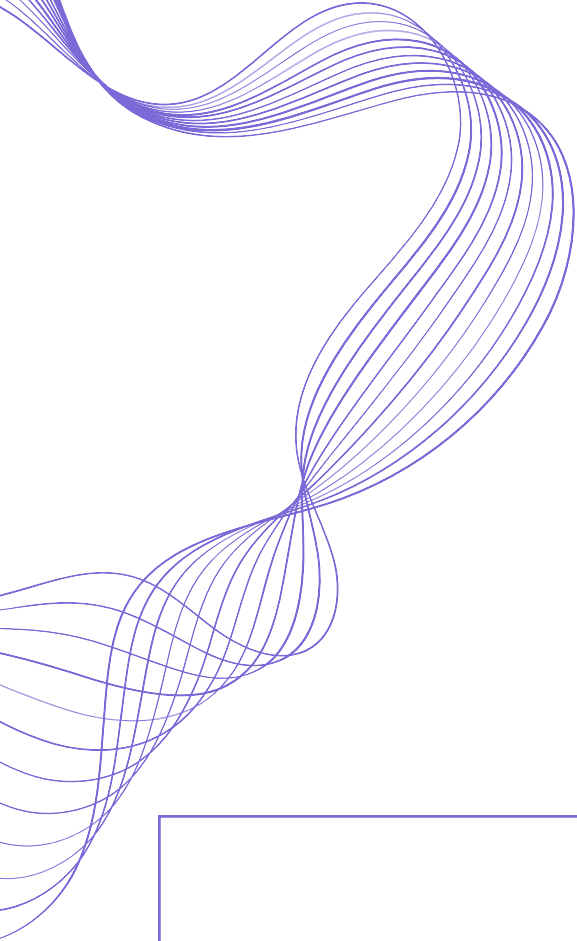

- **Capstone Project:** Develop and present a comprehensive Power BI solution as part of a final project. This project will involve designing, building, and deploying a full-featured Power BI report or dashboard.
- **Review and Interview Preparation:** Review key concepts and prepare for Power BI-related interviews with mock interviews, practice questions, and strategies for effective communication.

Outcomes

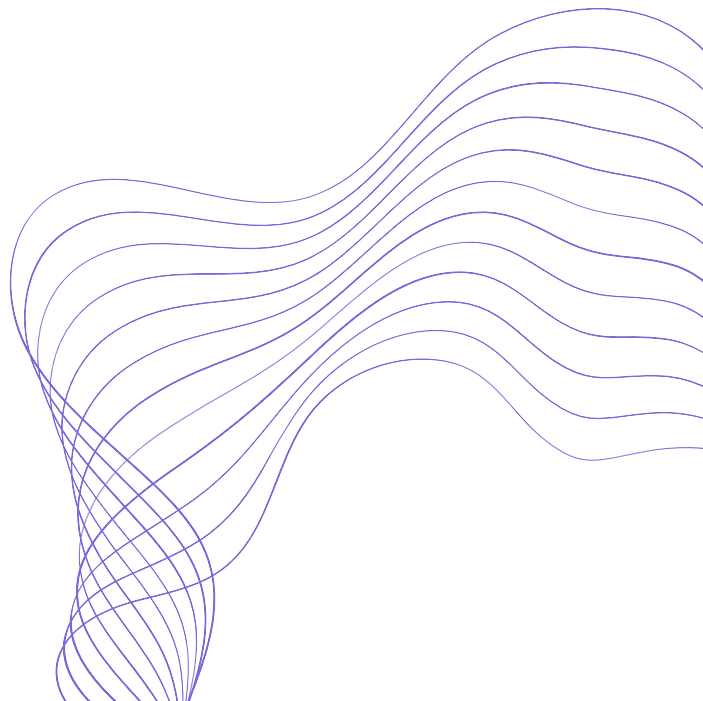

Students will design, develop, and deploy a full-featured Power BI dashboard as a final project. They will also be ready for interviews, equipped with strategies and practice for Power BI-related questions.

ROADMAP

PLACEMENT WEEK

PLACEMENTS WEEK

our comprehensive one-week placement training program designed to equip you with essential skills, knowledge, and confidence for your job search.

SCHEDULE OVERVIEW

- **Day 1:** Introduction to Placement Strategies and Resume Writing
- **Day 2:** Interview Preparation and Body Language
- **Day 3:** Skill Assessment and Improvement Workshops
- **Day 4:** Mock Interviews and Feedback Sessions
- **Day 5:** Personal Branding and Online Presence
- **Day 6:** Networking Strategies and Career Planning
- **Day 7:** Final Review and Q&A Session.
